½" Sheets – Approx. 110 Sheets (*Cameo White*)

Corian® Sinks – Approx. 63 Sinks (*Various Models*)

Milton District Hospital - OR

**Colours Used:**

Cameo White

**Key Features for Material Selection:**

The non-porous certified hygienic properties of Corian® Solid Surface can help architects and designers create healthcare spaces that meet & exceed the most demanding healthcare design environments. Corian® Solid Surface offers unlimited potential for a variety of surfaces in the healthcare space, such as operating room walls, scrub rooms, showers, handrails, benches, baseboards etc.

**Corian® Solid Surface is:**

- Easy-to-clean and maintain.
- When properly cleaned, Corian® is a hygienic surface and does not support the growth of mold and mildew.
- A non-porous surface with a smooth, seamless appearance.
- Extremely durable and long-lasting
- Easily renewed and repaired
- Flexible
- GREENGUARD Certified® as a low VOC-emitting material
- Stain resistant
- Slip resistant
- Extensive color choices available
