Partition Systems

- **PATENTED** Pin-Lock Technology allows the system to snap together without the use of mechanical fasteners.
- **PATENTED** design eliminates all stress points typical in other systems.
- **PATENTED** rigid mount ceiling hung anti-sway bracket.
- **PATENTED** striker/keeper is reversible. Two bumper points reduces impact.
- **PATENTED** sectioned panel is easy to handle and stronger than monolithic panels.
- **PATENTED** continuous self-closing hinge is fully integrated, yet is removable and reversible.
- One man installation with minimal tools.
- Door widths and side panels are trimable to accommodate field variations.
- Entire system ships on pallets. No crating costs.
