

Corian® Solid Surface Brings Chic Paris Department Store Galeries Lafayette to the heart of Shanghai Lujiazui

The world-renowned high-end French department store Galeries Lafayette sets its second flagship store in China at L+Mall Shanghai. With its prime position in the Lujiazui financial district, Galeries Lafayette is set to become a new fashion hub for Shanghai. Corian® Solid Surface is used throughout the commercial space, interior design and public area in Galeries Lafayette and L+ Mall to enable this perfect blend of art and forward-thinking design.

The Galeries Lafayette, founded in 1893, has developed into the epitome and the source of fashion culture with great attraction to upscale consumers. The flagship store will occupy shops from the first underground floor to the fourth over ground floor of the L+Mall, covering a combined area of approximately 23,000 square meters. Located in the heart of Shanghai's financial CBD, L+ Mall is situated close to Shanghai Tower and the World Financial Centre. With over 140,000 square meters in gross area, the space has ten above ground floors and one underground floor. The striking and futuristic interior design was inspired by the mall's target market of quality-conscious consumers. Corian® Solid Surface is used in every space of the shopping mall from

washroom to hallway to elevator to reception to countertop to basin.

Mall interior cladding, column cladding, elevator hall, and retail shop countertops all made use of Corian® Solid Surface. Copyright material of DuPont™ Corian®

Immersive skylight above the main arcade aims to resemble the night sky. Coupled with Corian® cladding and fluid LED light bands, a strong visual motif takes visitors on a journey through the space. The concept of the “walkable” skylight structure also allows people to go sightseeing on the roof using the entrance on the 11th floor. These are only possible with Corian® Solid Surface leveraging seamless joint and translucency capability without compromising functional benefits such as hygiene and easy to maintain.

Differ from the L+Mall's futuristic concept, Galeries Lafayette features traditional French noble concept with wood and brass. Using Corian® Solid Surface Glacier White, the paradoxical future classic designs are bridged through organic shaped interior façade seamlessly joint with columns and enhanced with specially designed flowing light which sets apart different spaces in the shopping mall.

With new portfolio of stores, art and delights, L+Mall moves away from the typical food-centric mall concept and redefines the mall and shopping experience in Shanghai. Once again, Corian® Solid Surface has made revolutionary design possible and sets L+Mall a new fashion icon in modern CBD.
