

# SUSTAINABILITY

## An Environmentally Friendly Choice

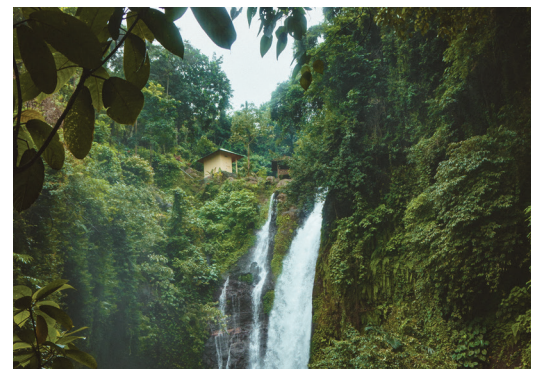

Sustainable Design that allows you to leave a big footprint on the design world, not the environment.

- GreenGuard® Certification
- Scientific Certification Systems
- Contributes to earning points under the LEED® Building Rating System™
- NSF International
- The Royal Institute of Public Health
- LGA QualiTest
- Declare Label – LBC Red List Free
- Environmental Product Declaration – In accordance with ISO 14025
- Health Product Declaration

## Make the environmental choice with the Corian® Designs Terra Collections.

More and more homeowners, businesses and institutions are searching for sustainable products that have less impact on the planet. Corian® Design, is innovating so you can do that without sacrificing durability, safety and beauty. Now you can create personal, beautiful spaces with Corian® Solid Surface made from recycled materials. These collections offer you the same low-VOC emissions for better indoor air quality and exceptional durability for long life that all Corian® Design surfaces are known for.

The collection is also GREENGUARD® Certified and can contribute to earning points under the LEED® Green Building Rating System™ developed by the U.S. Green Building Council (USGBC).

## Corian® Solid Surface:

Currently offers 21 colors that are either 6%, 13% or 20% pre-consumer recycled content.
