Introducing Corian[®] Endura[™]

BE IT VERTICAL OR HORIZONTAL, FOR INTERIORS OR OUTDOORS, KITCHEN COUNTERTOPS OR FEATURE WALLS, THE STYLE AND DESIGN OF ANY RESIDENTIAL OR COMMERCIAL PROJECT CAN BE FINELY CUSTOMIZED WITHOUT COMPROMISE. CORIAN® ENDURA™ PROMOTES A CREATIVE VERSATILITY, BOTH IN TERMS OF TEXTURE AND COLOR AS THE VARIOUS DESIGNS OFFERED POTENTIALLY SUIT ANY KIND OF STYLE.

Corian® Endura™ is a premium high-performance porcelain made from a recipe of natural minerals and cutting-edge technology. Compressed together under extreme pressure and then heated at high temperature in a similar way to how nature forges a diamond, this innovative material is a densely packed mass characterized by its durability and beauty.

This high-performance porcelain offers top-of-the-line durability, superior resistance to heat, scratches and stains, and it is UV safe. With its on-trend designs, combined with a network of support, $Corian^{\circ}$ EnduraTM is the perfect blend of beauty and engineering know-how to enhance any kitchen environment.

Thanks to its solid structure, it is able to withstand constant wear and tear while maintaining its exquisite composition and color. This surface solution is ideally suited to meet the exacting demands of modern residential kitchens and high traffic spaces, the focal point of family life and the creative hub for professional chefs. Corian[®] Endura[™] is the perfect companion.

Corian Endura Color Portfolio

ALL EYES WILL BE ON THE COUNTERTOP THANKS TO THE TIMELESS COLOR OFFERING FROM CORIAN® ENDURA™. THE COLOR RANGE IS COMPOSED OF A COLLECTION OF 11 TONES AND PATTERNS THAT PAIR SEAMLESSLY WITH A VARIETY OF INTERIOR MOODS.

COOL MARBLE

The luminous sheen of Cool Marble is paired with a dramatic background full of rich texture and elaborate veining that blends modern refinement and stylish classicalism.

SCALE 1:14

ANCIENT MARBLE

Ancient Marble conjures up the spirit of classic Carrara stone with a restrained pattern that recreates the subtle texture in muted shades of soft gray and off-white.

SCALE 1:14

SMOKY MARBLE

Punctuated by pronounced veining, the earthy gray-black tones of Smoky Marble elicit a striking naturalness and strength.

SCALE 1:14

BLACK MARQUIS

The subtle variegated lines and midnight dark hue evoke the raw essence of stone. Powerful and intense, Black Marquis creates a monumentum to beauty.

SCALE 1:14

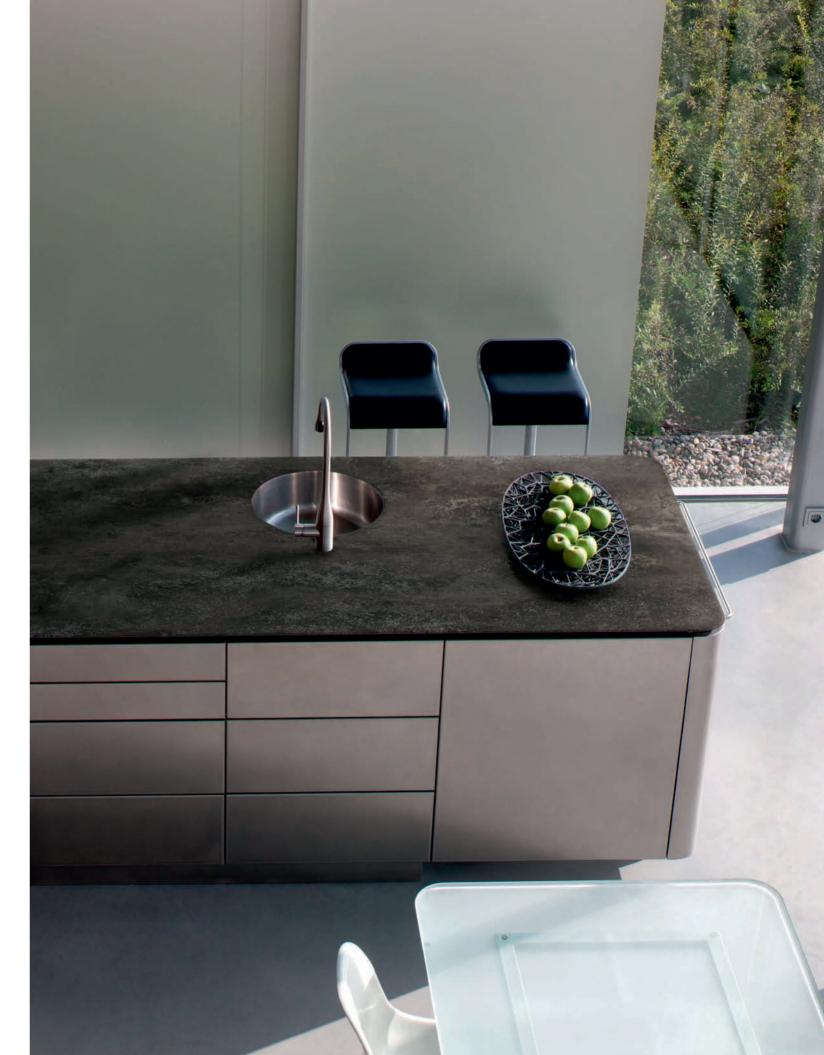

DEEP METAL

Deep Metal masterfully reproduces the effects of natural oxidation to create a rich chromatic composition marked by a cosmic brown-gray pattern.

SCALE 1:14

RUSTICA METAL

Set off by a chromatic palette of rusty reds and browns, the weathered patina of Rustica Metal produces a surface composition made of fluid effects.

ALABASTER CEMENT

The muted tones of Alabaster Cement are infused with a smooth, translucent quality that pays homage to the allure of classically sculpted stone.

SCALE 1:14

CINDER CEMENT

The cloudy off-white aesthetic of Cinder Cement projects a cool ethereal atmosphere. Its quiet composition creates a serene calm.

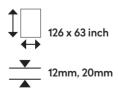

SCALE 1:14

URBAN CEMENT

Inspired by industrial design, Urban Cement has a smoky light gray pattern that imbues the material with an airy lightness and modern grace.

SCALE 1:14

DIAMOND WHITE

Clean, crisp, and minimal. Diamond White has a purity and a timelessness that enhances a space with a bright take on classic and modern aesthetics.

SCALE 1:14

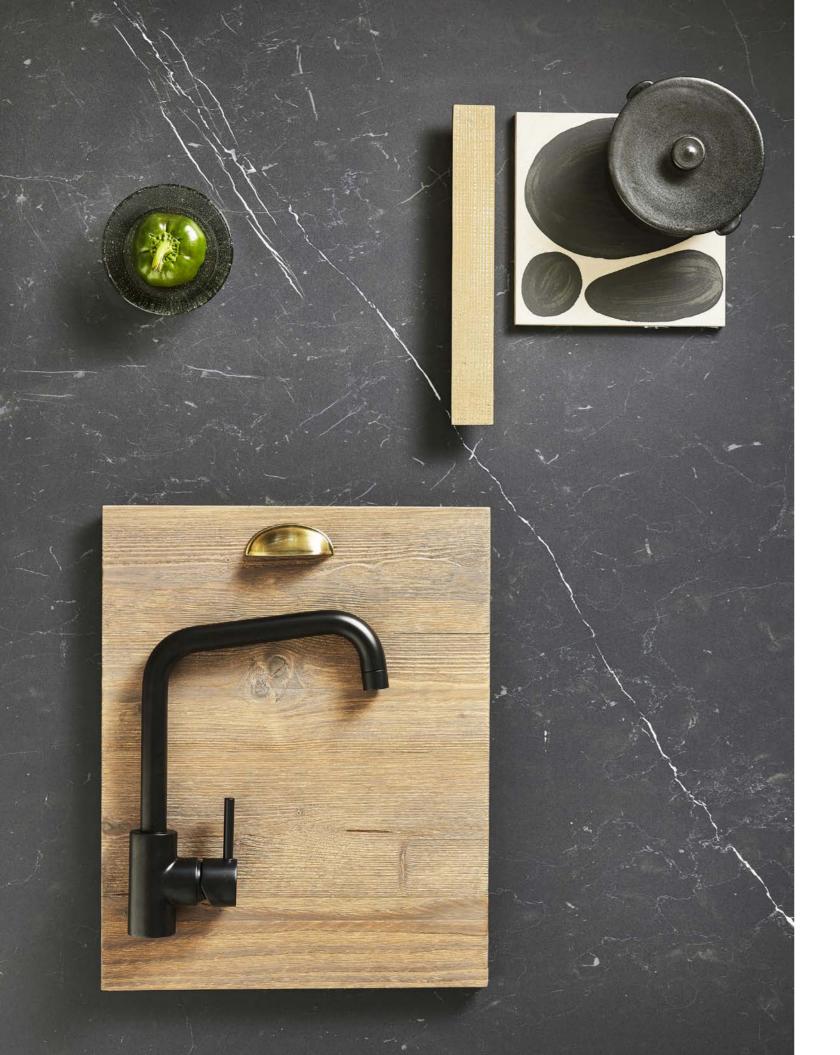

PITCH BLACK

Bold yet informal, Pitch Black is a cool monochromatic tone that projects understated sophistication together with an elegant simplicity.

CORIAN® ENDURA™ FINISHES

To complement the Corian® Endura™ offering, two finishes (Satin and Mineral, offering availability listed to the right) are available that look to improve the aesthetic properties of the cutting-edge surface solution.

The satin finish furnishes the high-performance porcelain with a quiet sheen that delivers an understated feel with its low reflectance and color enhancing richness.

With its finely textured surface, the mineral finish provides a tactile, earthy appearance, no matter the color, to make it look as if the material was extracted directly from the earth.
