SINTERED STONE SLABS

The perfect example of Italian style. Lapitec® is an innovative through body sintered stone slab. Available in large format slabs, it unites aesthetic design appeal and the superior mechanical and physical properties of porcelain with the elegance, workability, colors and typical finishes of natural stone.

ARABESCATA COLLECTION

The Arabescata collection consists of two, non-controlled through-body color and veining patterns which provide a unique style and pattern with every slab. Available in 12, 20 and 30mm thicknesses (59" x 132.5" slab size), this collection offers a warm palette to any application.
