Completely Silica Free Sintered Stone

Safer for Fabricators & Installers

In response to new health regulations in place in many countries around the world, Lapitec® has patented a mineral formula to create a material that is entirely free of crystalline silica.

Green

Made with natural minerals and is 100% recyclable

UV stable

Unaffected by sunlight

Frost resistant

Resistant to freezing temperatures

Easy to clean

Non-porous and stain resistant

Scratch resistant

High resistance against scratching

Hygienic and antibacterial

Prevents the growth of bacteria

Chemical resistant

Unaffected by alkaline or acidic products

Heat resistant

Resistant to high temperatures

Anti-Slip Performance
