

Lapitec® offers endless possibilities to combine finishes and colors, from smooth surfaces to more structured alternatives; all Lapitec finishes are created mechanically, without using any prints, glazes, or synthetic products. This is why Lapitec surfaces have a uniform look, and are unique and extraordinary to the touch.

## SATIN

Refined matt finish, making it soft to the touch and bringing to mind the special consistency and elegance of silk.

**SUGGESTED APPLICATIONS:** Indoor and outdoor countertops, shower walls and fireplace surrounds.

## LUX

High-gloss, creating a reflective look that adds brightness to any project.

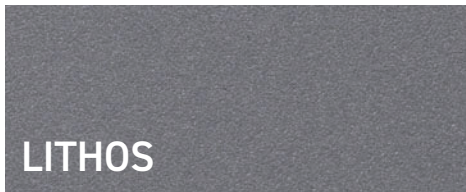

**SUGGESTED APPLICATIONS:** Indoor and outdoor countertops, shower walls and fireplace surrounds.

## VELLUTO

A smooth and soft-to-touch surface. The fine texture minimizes the appearance of fingerprints.

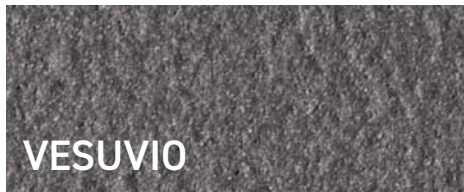

**SUGGESTED APPLICATIONS:** Indoor and outdoor countertops, shower walls and fireplace surrounds.

## LITHOS

Micro-bush hammering, creates subtle wrinkles on the surface, offering different sensations with every touch.

**SUGGESTED APPLICATIONS:** Exterior cladding, pavers, pools, and outdoor countertops.

## VESUVIO

The movement of the Vesuvio finish gives each surface strength and anti-slip properties.

**SUGGESTED APPLICATIONS:** Exterior cladding, pavers, pools, and outdoor countertops.

## ANTI-SLIP PERFORMANCES

REGULATION	DEFINITION	INDEX	SATIN	LUX	VELLUTO	LITHOS	VESUVIO
DIN 51130	Anti-slip testing of floor coverings, Shod feet	Group of Anti-Slip Properties	-	-	-	R10	R10
DIN 51097	Anti-slip testing of floor coverings, Bare feet	Group of Anti-Slip Properties	-	-	A	A+B	A+B+C
ANSI A137.1:2012 / A326.3:2017	Tile Slip Test	DCOFw	0.46	0.25	0.43	0.46	0.5
