

# CORIAN® SOLID SURFACE

## LIFE CYCLE COST ANALYSIS

Corian® Solid Surface has a long life cycle and requires less replacement over time, offering exceptional cost effectiveness with reduced waste.

**CORIAN® SOLID SURFACE IS TRULY VERSATILE** You can turn Corian® into anything you want it to be. In its simplest form, it's a sheet that's solid all the way through.

**CORIAN® SOLID SURFACE COMBINES THE BEST OF A NUMBER OF NATURAL MATERIALS** It has the smoothness and substance associated with stone and the workability of fine wood. It is a high performance composite material made of natural minerals and superior quality acrylic resins - a combination that gives it a number of functional and aesthetic advantages over other materials.

**AESTHETICS & ATTRIBUTES** Non-porous/easy to clean from a purely practical standpoint, Corian® is easy to live with. Corian® Solid Surface is non-porous, resistant to stains and bacteria, with color running all the way through and is also recyclable. As there is no coating or layering to peel, wear away, chip or scorch, which makes it extremely durable and easy to clean.

As compared to other surface building materials (i.e. laminate) Corian® Solid Surface (boasting renewable properties and low maintenance) outperforms most materials over an extended period of time (see chart below).

### LIFE CYCLE COST ANALYSIS | Corian® Solid Surface vs Other Surfaces

**FORMABLE** The formability of Corian® Solid Surface adds to its versatility. You can cut it, carve it, rout it, drill it, sculpt it, bend it, or work it like a fine wood. The ability of Corian® to be thermoformed allows it to flow with your designs. An ordinary sheet of Corian® Solid Surface can be transformed into an art form... dramatic shapes that can engage, excite and express!

**ILLUMINATING** The natural translucency of Corian® allows it to contribute drama and definition to any installation. When backlit, Corian® Solid Surface glows. Surfaces become more luminous - lighter colors are warmer, softer; darker tones become richer, deeper.

**RENEWABLE** Where damage may occur, Corian® is easily renewable. Corian® Solid Surface can be restored to its original state, using an ordinary abrasive cleanser and a cleansing pad. However, if damage does occur, Corian® Solid Surface can be repaired on site, saving both downtime and aggravation.
