

TUET

THE NEW DEEP SURFACE FOR INTERIOR DESIGN

Suitable only for vertical application, Tuet is designed to be in combination with two new wood decors: Caravella Light and Caravella Dark. It's the first deep surface by Arpa, drawing inspiration from the Piedmontese reedbeds, which run along the Tanaro river, it highlights the dark and light contrast, allowing to discover the whole charm of a ribbed surface.

TUET REVEALS THE HARMONY OF FLUID CONTRASTS, VISUALLY & TACTILELY.

Immersing into the waves of the deep surface, the light transforms each furnishing scene into an evocative composition characterised by light and shadow, which varies according to the time of day.

Complementarily, the wood grains provide a changing tactile experience, combining a smooth touch with a pleasant wavy sensation. With their geometric deep rhythm, the "reeds" create movement and, simultaneously, give equilibrium to the whole design creativity.

Tuet becomes a sinuous dance of texture, where the repetition of wood reliefs forms an atmosphere of natural wellbeing.

SHEET SIZE

1.5 mm 3050 mm x 1300 mm (120" x 51")

BALANCING OPTIONS

TUET DECOR	AESTHETICALLY MATCHED ARPA DECOR TO BE USED AS BALANCER
