LEED®v5 MR Credit Building Product Selection & Procurement

FENIX NTM®

This statement summarises the evaluation of a construction product in accordance with the LEED v5 BD+C Materials and Resources Credit: Building Product Selection and Procurement (MRc4).

This credit rewards products that demonstrate verified performance across **five sustainability areas**: Human Health, Climate Health, Ecosystem Health, Social Health and Equity, and the Circular Economy. The product score is determined based on third-party verified documentation provided by the manufacturer. The maximum **score per product ranges from 0 to 5 points**. Products with higher scores are more likely to contribute to LEED certification, support project sustainability goals and enhance market competitiveness.
