

NATURE IN MOTION

The 2026 Corian Design palette captures Nature in Motion through nine new colors shaped by biophilic forms and grounded, earthy palettes

Travertine Firenze

A timeless interpretation of natural stone.

Warm grey veining.

A serene neutral background.

Full Sheet View - 30" x 144"

Travertine Roma

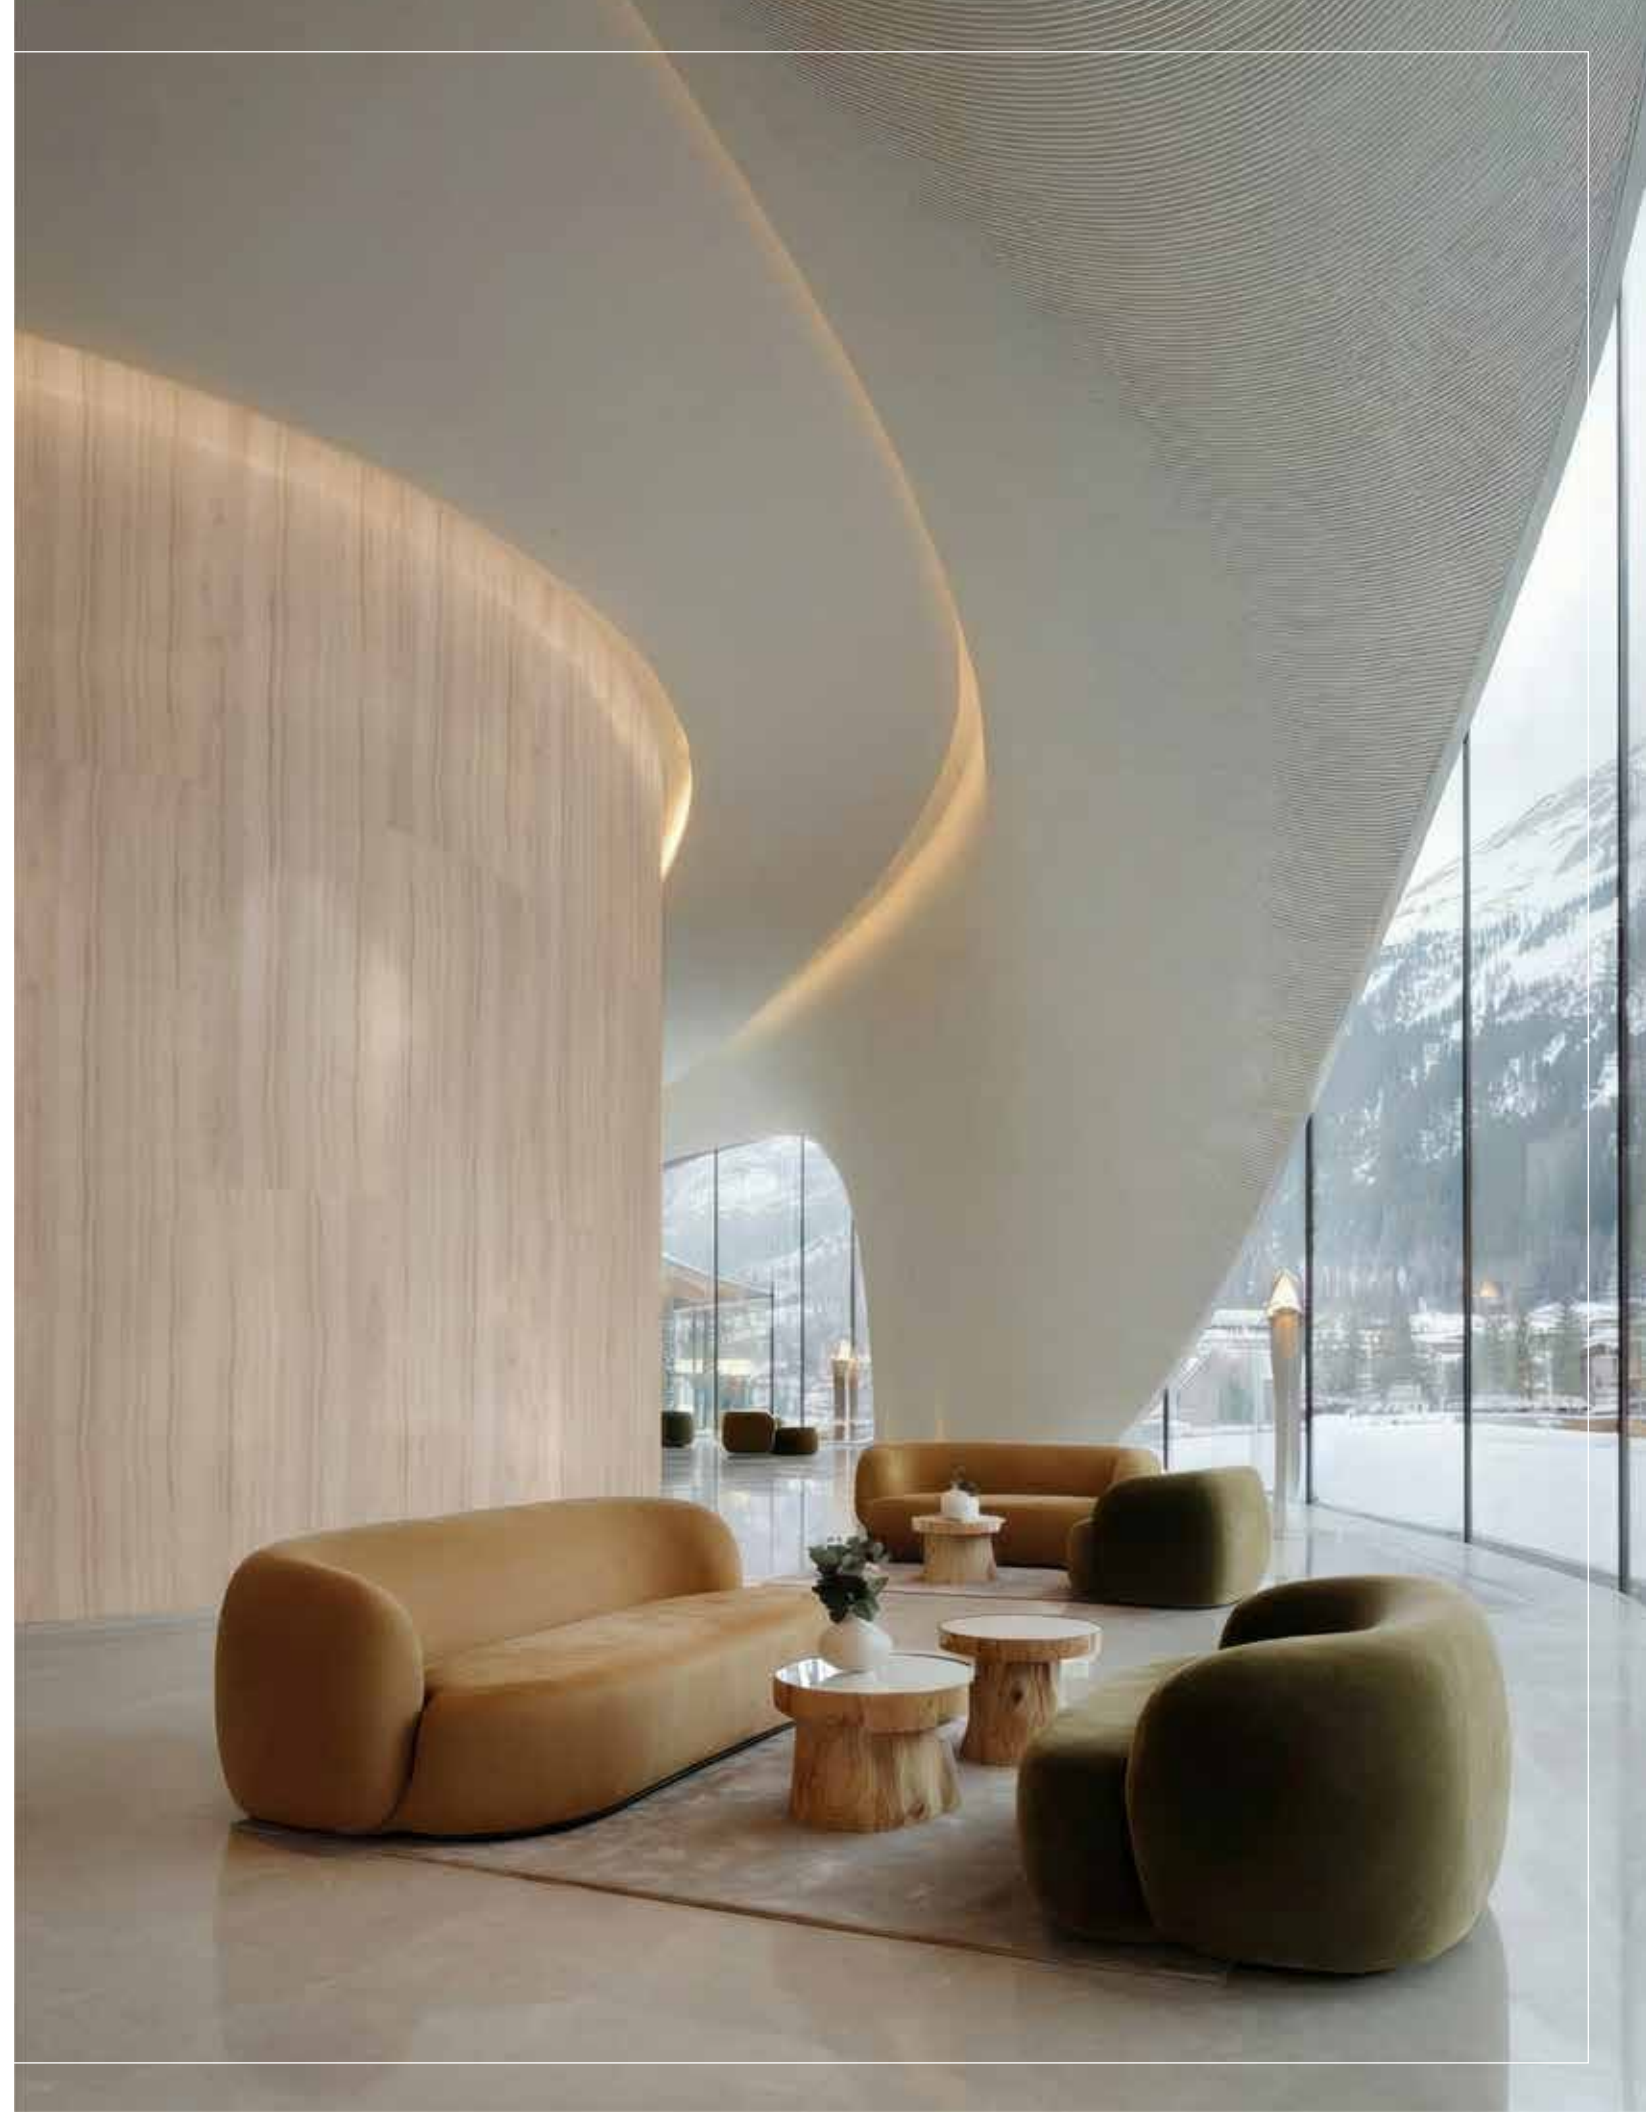

An architectural refinement inspired by Italian stone.

Subtle greige tones

An off-white surface background

Full Sheet View - 30" x 144"

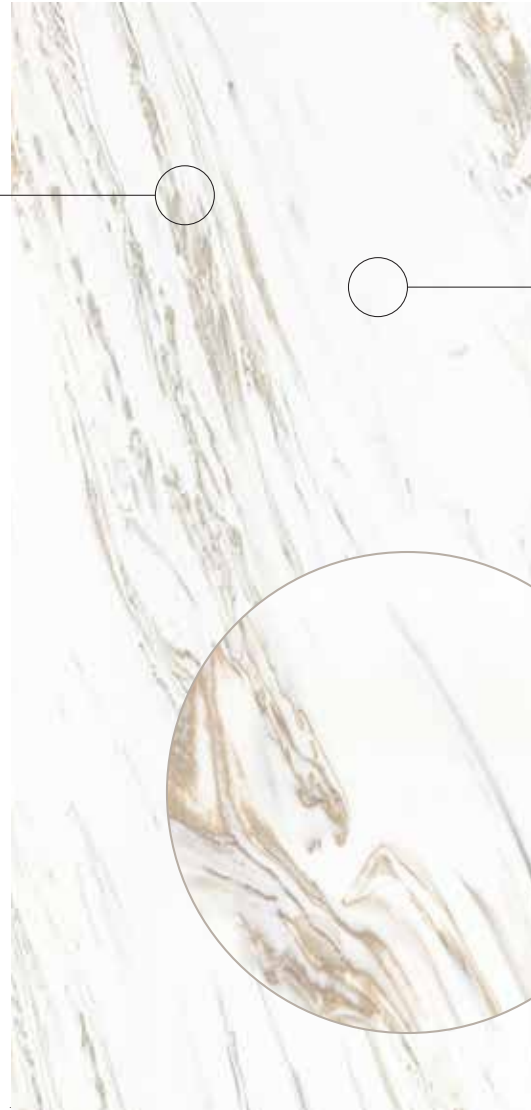

Vasto Greige

Delivering depth and presence resembling natural stone.

Broad beige and grey veining

An off-white background

Full Sheet View - 30" x 144"

Vasto Laguna

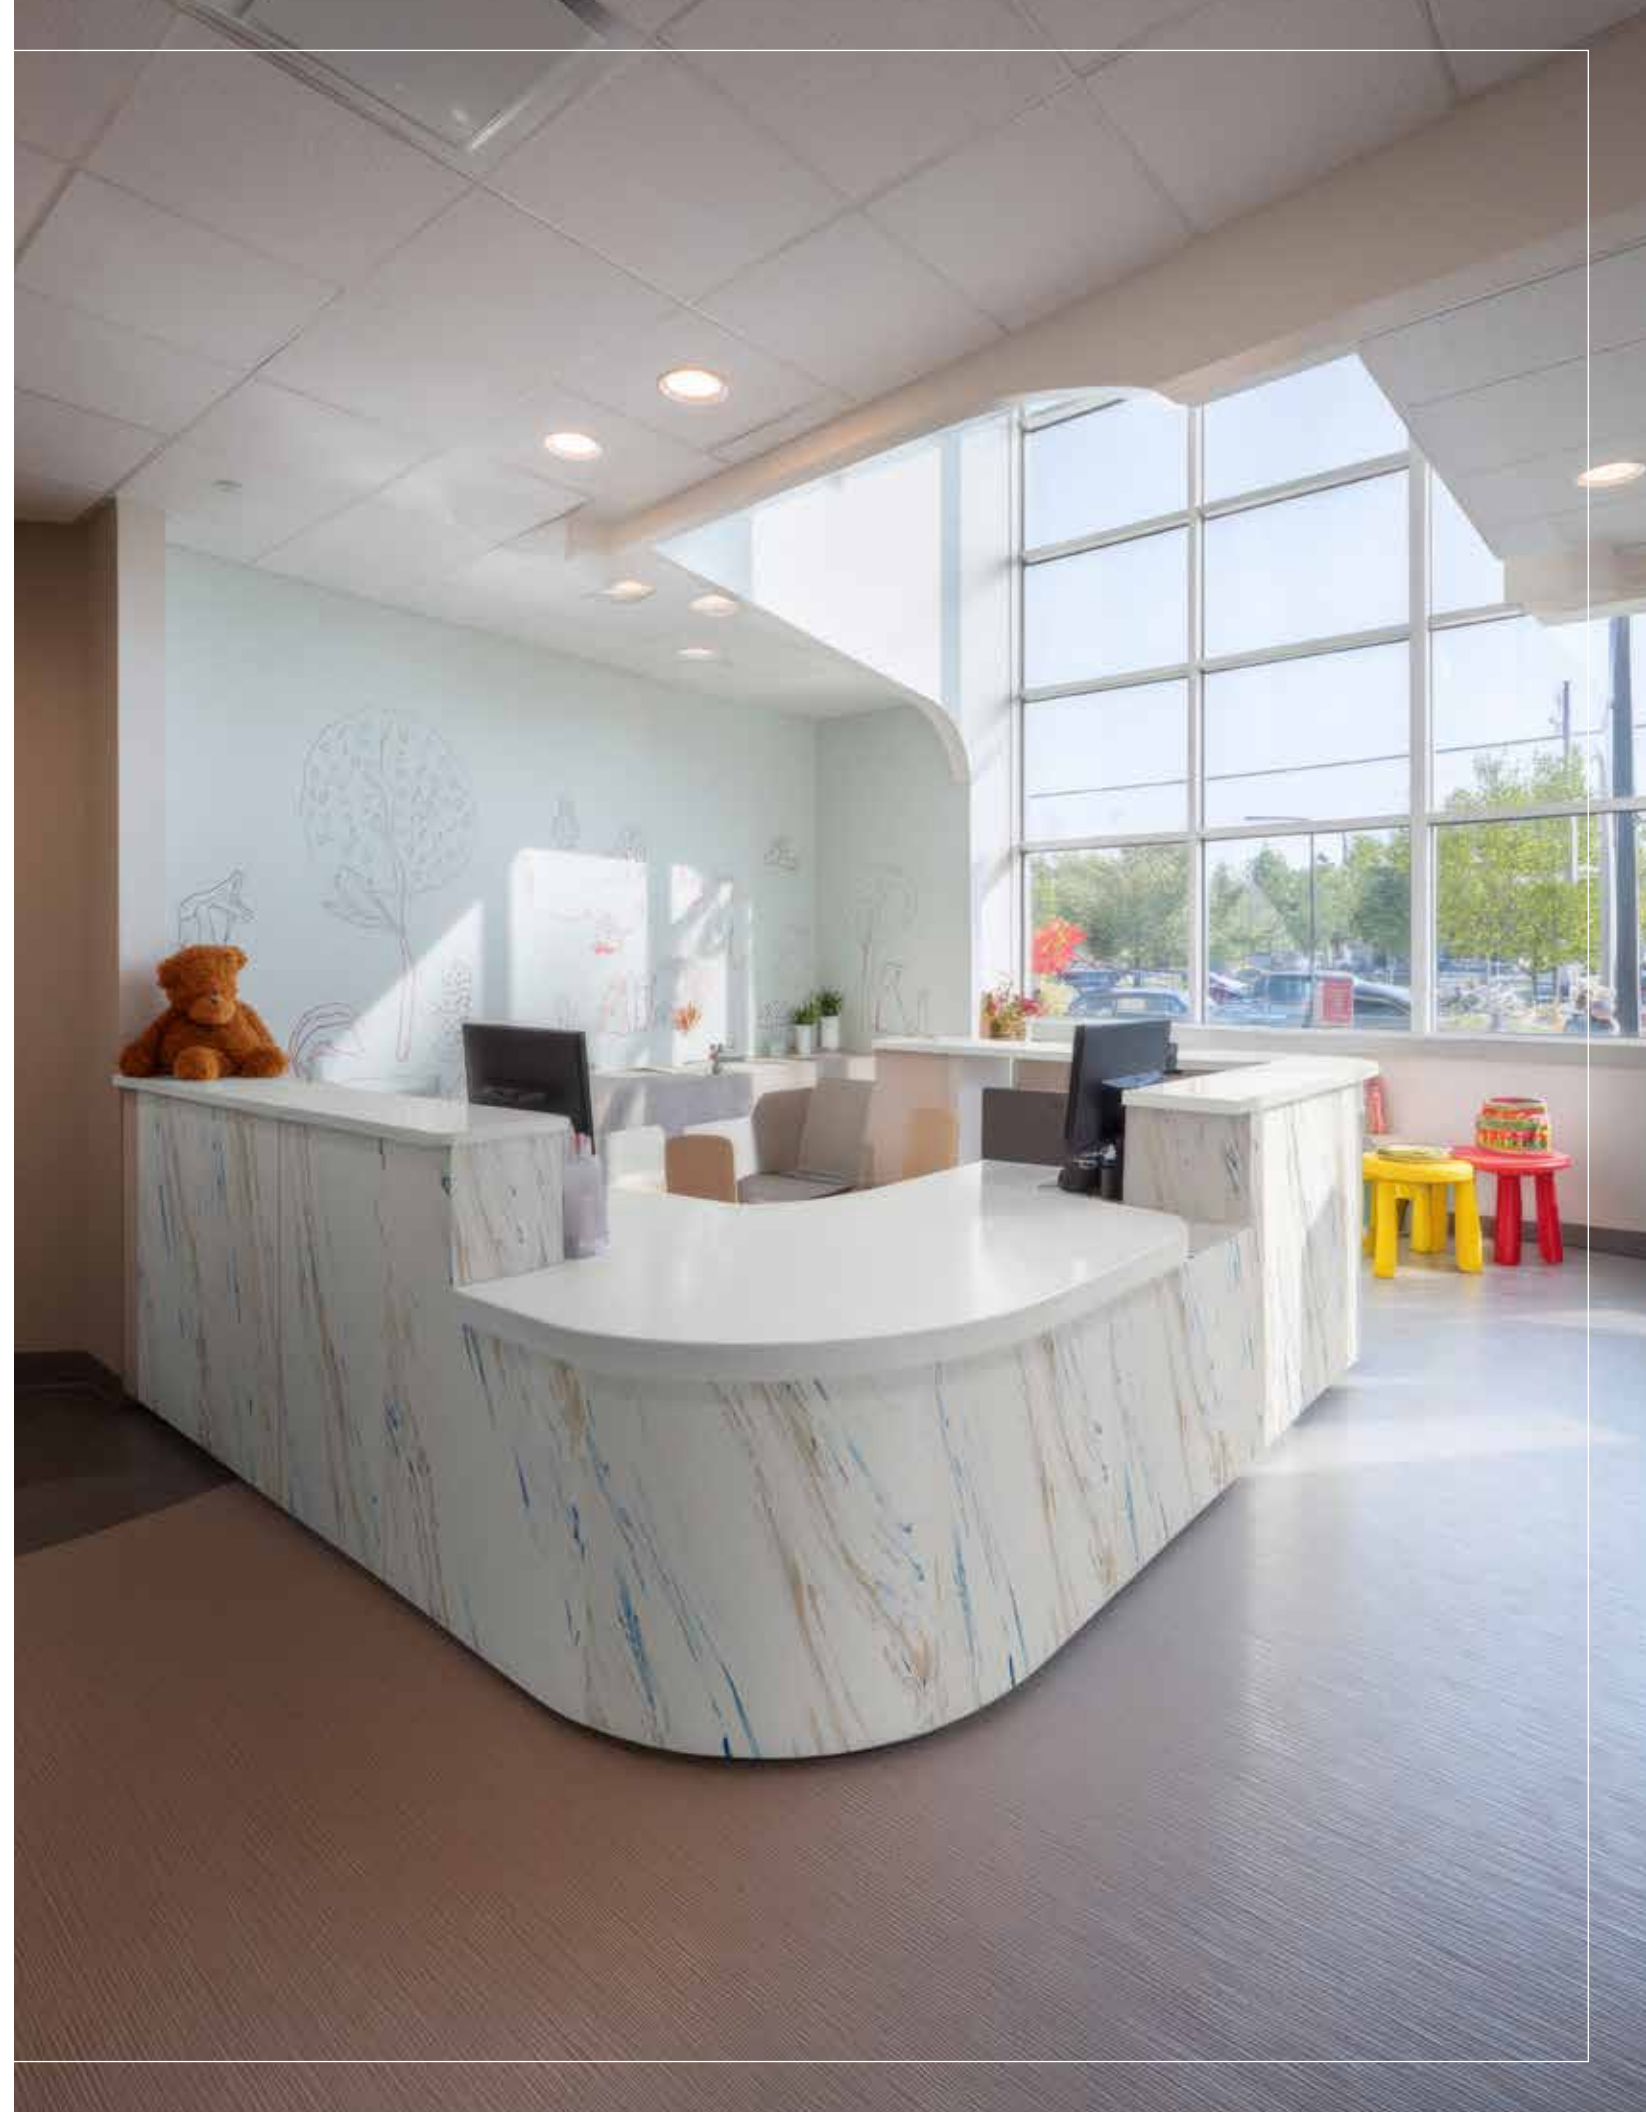

Translating biophilic influence into commercial interiors.

Blue and warm grey veining inspired by sky and sea

An off-white background

Full Sheet View - 30" x 144"

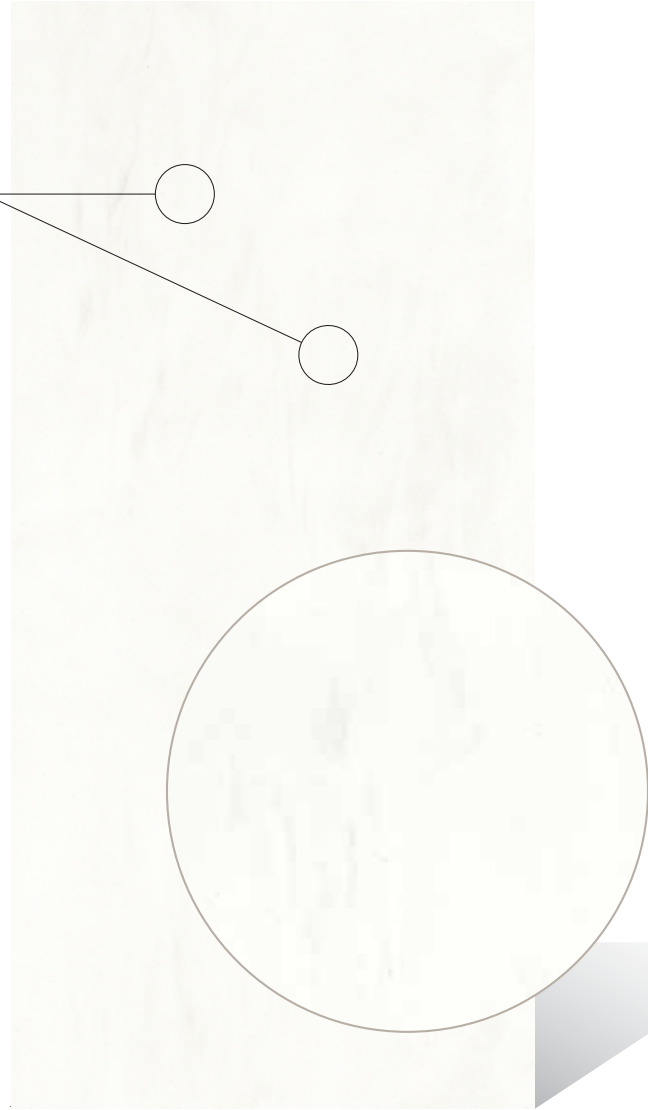

Artisa Drift

A brighter expression of the Artista collection offering subtle elegance.

Fine veining and soft movement

Full Sheet View - 30" x 144"

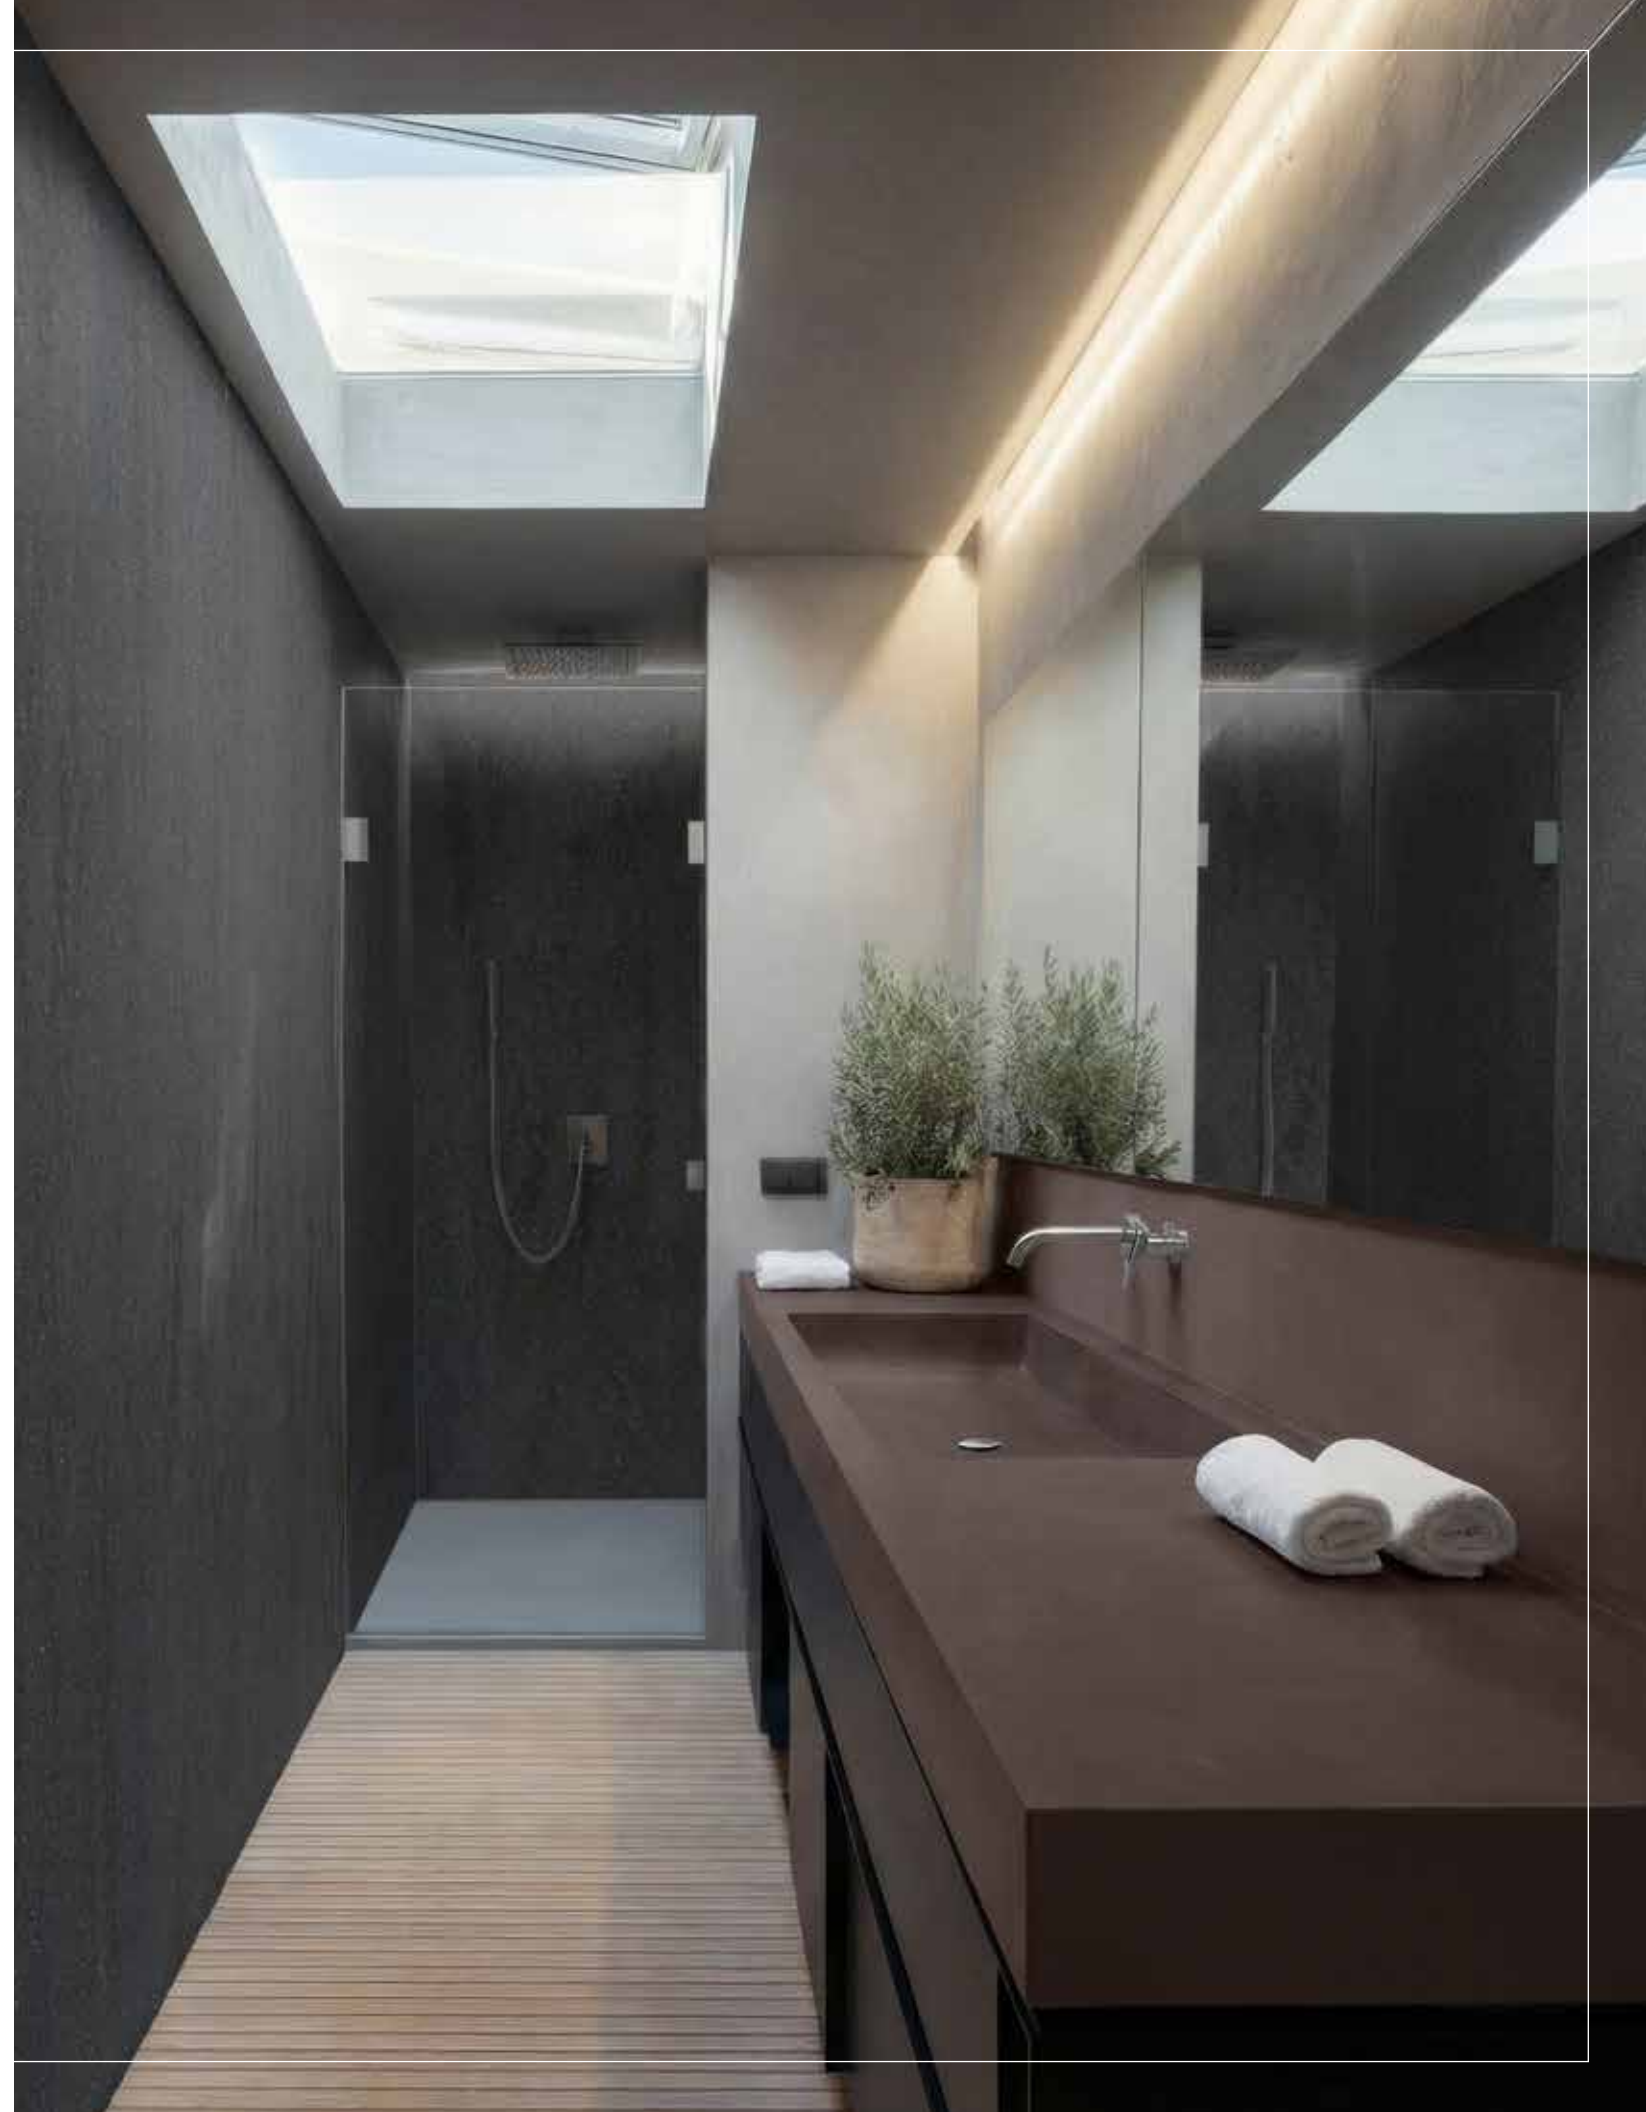

Artisa Mocha

An aesthetic for the growing demand for warm, layered tones.

Rich brown
veining with
coffee-inspired
depth.

Full Sheet View - 30" x 144"

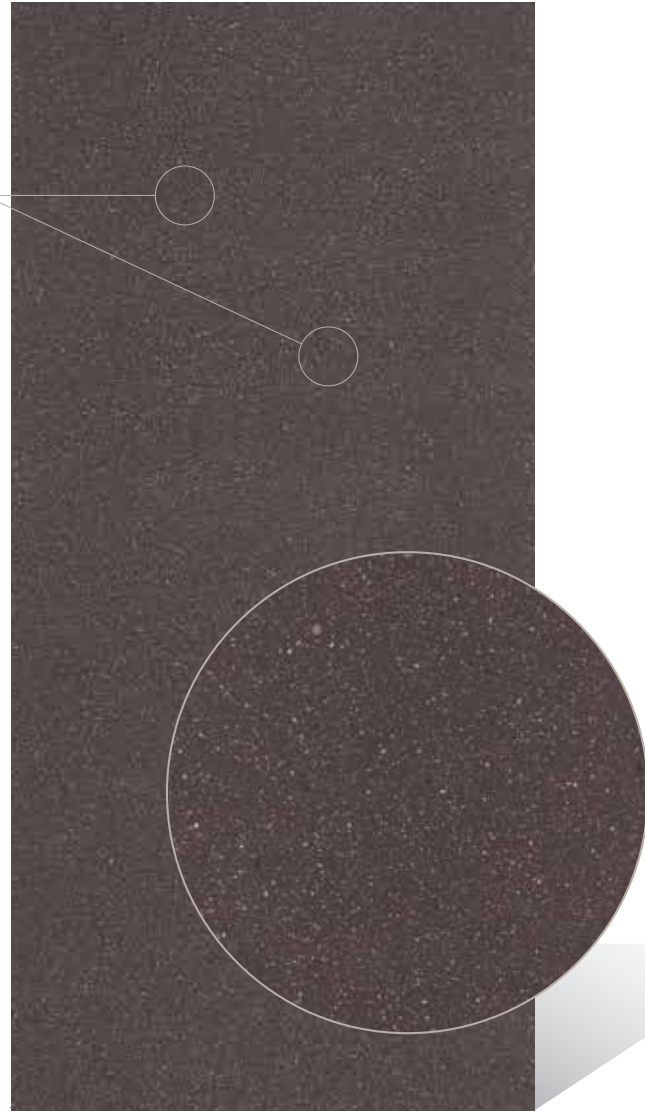

City Roast

Developed with hospitality and food service environments in mind.

Deep brown with
subtle particulates

Full Sheet View - 30" x 144"

Coastal Haze

Coastal Haze is a cooler, grey-influenced option. It retains classic appeal, with a combination of veins, both cool and warm, that allow for options, especially with cooler white cabinetry and blues, as well as stained colors.

Harbor Veil

Harbor Veil is a warmer off-white option with tan/brown/gold veins which transition easily with painted and wood-stained elements.
