CORIAN® SOLID SURFACE

HEALTHCARE APPLICATIONS

Healthcare Applications

When you're designing a high-visibility area that simply must have that "wow-factor" or a high-traffic area that needs to withstand heavy use and still look like new, wall panels, partitions, and interior cladding created with Corian® deliver the ideal combination of functionality and beauty.

Hallway: Corian® Solid Surface can meet the demand for a highly durable surface that can withstand frequent contact with beds, whellchairs and medical equipment during patient transport.

Testing Areas & Labs: Corian® Solid Surface can stand up to harsh chemicals without deteriorating and can resist strains from common lab agents including blood, plasma and Wright's stain and X-Ray devolper.

Operating Room: Whether used fo wall cladding, counters or wash sinks for operating rooms. Corian® Solid Surface delivers maximum design versatility in a nonporous surface thats easy to clean and resists stains common to operating rooms such as blood.

Main Lobby: As the first point of contact for patients and families. Corian® Solid Surface can help create a dramatic look in lobby receptions areas.

Patient Rooms: Corian® Solid Surface delivers style and superior durability for bathroom sinks, vanities, showers walls, counters, bed tray tables, windowsills and desks.
